Preface

This booklet gives you information about what Sydney Distance Education High School expects of you while studying Higher School Certificate courses.

You should also read the additional assessment information that will come to you from your teachers about the particular courses you are studying.

The NSW Education Standards Authority (NESA) assessment requirements for the Higher School Certificate are implemented by this school. A copy of NESA's Rules and Procedures for 2024 Higher School Certificate Candidates can be downloaded from

<https://educationstandards.nsw.edu.au/wps/portal/nesa/11-12/hsc/rules-and-processes>

It is important to note that the Principal has the discretion to make rulings/decisions in special cases or exceptional circumstances and not all of these situations are outlined in this booklet as it would be impossible to do so.

NSW Education Standards Authority (NESA) Students Online

During your Higher School Certificate year, the NESA Students Online service will be available for you to logon and view your HSC enrolment details. By using your student number and PIN provided by NESA, you will be able to check important details relating to your enrolment and view important information such as your personalised HSC written examination timetable, personalised Advice Line schedule, your Assessment Rank Order (after the final HSC examination) and information regarding your HSC results. In addition, Students Online has links to other relevant sites.

Part 1

Year 12 – Higher School Certificate Assessment Policy and Procedures

The assessment procedures used by Sydney Distance Education High School follow the NSW Education Standards Authority (NESA) policy statements and guidelines concerning Higher School Certificate assessment.

NSW Education Standards Authority (NESA) Requirements

Satisfactory completion of Higher School Certificate courses

- Students are required to meet course completion criteria as well as assessment completion criteria.
- A student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:
 - a) followed the course developed or endorsed by NESA; and
 - b) applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
 - c) achieved some or all of the course outcomes.

(Students who are likely to travel overseas during the HSC year should note that they need to demonstrate regular engagement with their courses of study until the end of the academic year, in order to fulfil these NESA requirements.)

- Students are expected to complete all tasks which are part of the assessment program in each course of study. School-based HSC assessment contributes 50% of the final Higher School Certificate mark and is reported on the Higher School Certificate Record of Achievement.

Students **must** complete assessment tasks that contribute more than 50% of the total assessment marks to qualify for the Higher School Certificate. Students cannot qualify for a Higher School Certificate in a course where they do not meet minimum assessment requirements.

- Students and supervisors are directed to the NSW Education Standards Authority (NESA) website for further information. <http://educationstandards.nsw.edu.au/wps/portal/nesa/home>

School-based assessment

NESA developed courses (also called Board developed courses)

Year 12 students complete school-based assessments as part of their HSC, which contribute 50% of their final HSC mark for a course (except VET and Life Skills courses). Assessment is based on mandatory weightings and components as set out in the syllabuses for each HSC course being studied.

VET courses

Assessment in VET courses is competency based. This means that the student needs to demonstrate that they have gained, and can apply, the specific knowledge and skills for the unit of competency to be deemed competent in that unit.

Due to the specific requirements of VET courses it is recommended students speak to the VET Coordinator to ensure they are fully aware of the requirements.

Life Skills courses

Evidence of achievement of outcomes is gathered through ongoing assessment. There is no requirement for formal assessment of Life Skills outcomes.

Sydney Distance Education High School

Requirements

Delivery and submission of assessment tasks in Year 12

Assessment tasks are delivered to students and submitted by students through the **SDEHS elearning site**.

The assessment task notification will provide all the necessary information about the task. Notifications for each task are emailed to students and supervisors.

Trial examinations

The Trial examinations are held in Weeks 3 and 4 of Term 3, as shown on the course outline for each course.

The delivery and submission procedures for the Trial examinations are reviewed each year and may be different from the other assessment tasks.

Further information, including the scope, format and timetable for these examinations will be provided for students and supervisors during Term 2.

Course Assessment Schedules

Course Assessment Schedules provide students with the general nature, weighting and timing of formal tasks. The schedules for all courses are in Part 2 of this booklet.

Course teachers advise in writing the precise timing and nature of the task, at **least two weeks** before the task commences. This **task notification** is **emailed** to students and supervisors.

It is the **student's responsibility to be alert to the notification** and **due date** of tasks by reference to the Assessment Schedule. If uncertain about a task, students/supervisors should communicate directly with the course teacher or course head teacher.

Changes to Course Assessment Schedules

Under certain circumstances, head teachers may find it necessary to vary their assessment schedules. Students and supervisors will be informed by email, with at least two weeks notice of the variation for any task being brought forward. The notice may be less than two weeks if the task is being moved to a later date.

Key responsibilities

Supervisor

It is the responsibility of the supervisor to support the student to meet the assessment requirements for their HSC course.

- **Follow all instructions** given for the assessment task, in the notification and on the task itself.
- **Comply** with all NESAs requirements for Major Projects / Works. The supervisor will receive a letter from SDEHS regarding progress reports for a Major Project / Work.

Student

- **Follow all instructions** given for the task, in the notification and on the task itself.
- **Follow the principles set out in *HSC: All My Own Work*** and make a **genuine and serious attempt in all tasks**. If a student is deemed to have engaged in malpractice, or to have made a non-serious attempt, a mark of **ZERO** is awarded for that task. (See Malpractice, page 7)
- **Keep records of the progress of your work**, for example draft versions or timestamped Google or Word documents. It is also recommended that students **back-up** assessment tasks on an **external drive**, or use **cloud storage** such as OneDrive or Google Drive, to avoid loss in the event of hard drive failure. OneDrive and Google Drive provide built-in version histories.
- **Complete and submit all tasks by** the published due dates. A **ZERO** result is given for **all late** assessment tasks. Students have access to an Illness and Misadventure process to cover genuine illness and misadventure which results in late submission.
- **Keep a final copy** of all assessment tasks. This copy can be in the form of a saved file, photocopy, scanned digital images (jpg files), or digital photographs taken on a camera or mobile phone. It is recommended that this copy be stored on an **external drive**, or **cloud storage** such as OneDrive or Google Drive. This copy will:
 1. provide the student with the opportunity to submit a replacement task if the correct processes for submission have not been followed; and
 2. provide proof to the teacher that they have attempted/completed the task according to instructions.

Tasks that are completed on electronic devices should be appropriately saved and should **not** be deleted, until the marked task is returned from your teacher.

Disability provisions

The supervisor may apply disability provisions for the completion of the assessment task if the student has been granted such provisions by NESAs or by the SDEHS or home school's Learning and Support Team, or in accordance with the adjustments and accommodations agreed upon in the student's current Personalised Learning and Support Plan.

Non-submission or late submission

A **ZERO** result is given for ALL assessment tasks not submitted on time.

Students have access to an Illness and Misadventure process to cover genuine illness and misadventure resulting in late submission.

Illness/Misadventure/Extraordinary Circumstances Applications

Students may be eligible for consideration for illness/misadventure/extraordinary circumstances if, immediately prior to or during an assessment task, an illness, misadventure or extraordinary event occurs that is unforeseen or beyond the student's control.

The circumstances **not** covered include, but are not limited to:

- disabilities for which disability provisions have already been granted, unless an unforeseen episode occurs during the assessment task or further difficulties occur
- long-term illness, unless the student suffers a 'flare-up' of the condition immediately before or during the assessment task
- matters avoidable by the student, such as misreading the assessment schedule and due date
- computer malfunction or technology breakdown, or failure to save responses throughout the task's completion
- long-term matters relating to loss of preparation time or study facilities, or alleged inadequacies of teaching.

To apply, the supervisor completes the SDEHS Assessment Task Form found on the SDEHS website, and emails it to the **head teacher** of the course immediately.

- The form must be submitted **before** the due date of the task, along with **independent documentation** to support the application.
- The supporting documentation, typically a medical certificate, **must** specify the time period that the student is unable to complete the task. This time period must coincide wholly or partially with the task timeframe.
- Where a medical certificate is provided, the school may seek authentication from the issuing medical practitioner where it is deemed necessary. This is to ensure maximum support is provided to the student in meeting outcomes as set out by NESA.
- Medical certificates from websites are not acceptable documentation to support the application.

The head teacher will advise the supervisor of the **outcome** of the application. The outcome will be one of the following:

- an extension of time or rescheduling of the task. The extended or rescheduled date can be the day immediately following the medical certificate expiry.
- an alternate task
- in exceptional circumstances only, and requiring the authorisation of the Assessment Review Panel, an exemption and the use of an estimate may be approved. The estimate mark for the exempt task is determined at the end of the course.

Malpractice

Malpractice is any attempt to gain an unfair advantage over other students. Malpractice is addressed directly by NESA in *HSC: All My Own Work*, completed by all students.

Types of malpractice in HSC assessment tasks may include, but are not limited to:

- using the words, ideas, designs or workmanship of others without acknowledgement
- copying from another student
- paying someone to write or prepare an assessment task
- being in possession of unauthorised notes or electronic devices during a test or examination
- a non-serious attempt that is deemed to be frivolous or offensive.

Malpractice in any form is unacceptable.

The use of generative AI tools in assessment tasks, unless instructed by the task itself, is regarded as malpractice.

SDEHS uses an AI detection tool within the elearning site for assessment tasks.

If malpractice is **suspected**, the investigation is managed by a panel consisting of the faculty head teacher, the deputy principal responsible for that faculty, and a head teacher from another faculty.

The supervisor will be informed of the suspected malpractice and provided with information about possible appeal options.

In the case of plagiarism and use of AI specifically, the supervisor will be asked to provide evidence that all unacknowledged work is entirely the student's own. Such evidence might include but is not limited to:

- the student providing evidence of and explaining the process of their work, which might include diaries, journals or notes, working plans or sketches, and progressive drafts to show the development of their ideas
- the student answering questions regarding the assessment task, examination or submitted work under investigation, to demonstrate their knowledge, understanding and skills.

If malpractice is **concluded to have occurred**, one or more of the following consequences will apply:

- reduced marks for all or part of the task
- zero marks for all or part of the task
- a NESA warning letter sent to the student/supervisor.

Malpractice records

- As required by NESA, SDEHS maintains a register of proven malpractice.
- The information in the register is reported to NESA annually.

Use of generative AI in course work

Students should note that the principles and practices set out in *HSC: All My Own Work* mean that the use of generative AI tools in course work, unless instructed by the task itself, is not permitted.

School-based Assessment Task Appeals Procedure

If a student/supervisor questions or has concerns relating to a marked assessment task or an assessment task for which a mark of zero has been awarded, an appeal must be made by the supervisor to the course head teacher within **7 days** of notification of the mark.

The appeal must be based on evidence of a breakdown in process or procedure in the administration of the task or the marking processes. Teacher judgement in the awarding of marks cannot be appealed.

The completed SDEHS *Assessment Task Form (Appeal against a task result)* found on the SDEHS website must be submitted to the head teacher by email.

Appeals are referred to the **Assessment Review Panel** for determination. The panel comprises a deputy principal, the Head Teacher Teaching and Learning (Assessment and Reporting) and a member of the executive from another faculty.

If the appeal is upheld, the decision of the panel will override any warning letters issued for that task.

Invalid or unreliable tasks

In rare circumstances, if a task is found to be invalid or fails to discriminate, students will be informed by email by the head teacher of the course. The Principal may determine that the weighting of the task be reduced, and a new task added with weightings adjusted accordingly. A minimum of two weeks notice would be given for the added task.

Official Warning Letters

Where a student fails to comply with NES or school requirements for the satisfactory completion of the Higher School Certificate course, the supervisor will receive an **official warning letter** from the school outlining the nature of any outstanding learning responses or assessment tasks. The warning letter is designed to give the student the opportunity to redeem themselves. It will contain details of work to be completed and the timeframe for completion and return. To redeem an official warning letter, the student must comply with the letter's requirements in full.

If a warning letter is issued for an assessment task, and the student has an appeal related to that task upheld, then the appeal decision overrides the warning letter for that task.

Failure by the student to respond to the requests made in official warning letters may lead to the issue of an **'N' Determination** in that course, indicating non-completion of course requirements. An 'N' Determination will mean that the student may not be eligible for the award of the Higher School Certificate.

Final Assessment Rank Reviews and Appeals

Final Assessment Rank Reviews and Appeals

During the year, Higher School Certificate students are ranked in each assessment task in each course. The overall rank for each course is calculated on an ongoing basis following each task. The final rank reflects the student's position in the group at the end of the assessment program.

Final assessment marks are not released to students. However, after the final HSC examination, you can obtain your final rank order for assessment in each course via Students Online. If, in any course, your final HSC assessment rank is significantly different from the rank you expected, the NSW Education Standards Authority (NESA) allows you to request a School Review of your ranking in that subject.

Remember: Your final Higher School Certificate assessment rank will be based on the results of all assessment tasks in that course.

Students can seek a school review of their **grade** for English Studies, Mathematics Standard 1 and Numeracy only.

Request for School Review

Requests for School Review of your final HSC assessment rank must be based on one of the following three official grounds:

- The weightings that were used are not those specified by NESA in the subject Assessment Guides
- The school's procedures for determining assessments do not conform with its stated policy and programs
- There are clerical or computational errors.

Marks awarded by teachers for individual tasks are not subject to review as part of this process.

Concerns relating to individual tasks must be raised with one week of receipt of the marked task.

Requests for School Review of your final Higher School Certificate assessment rank must be made on a NESA form called *Application for School Review of Assessment Ranking*. This is available via **Schools Online** on the last day of the HSC examinations. The completed form should reach Sydney Distance Education High School by the date specified by NESA on the form. This date will be only a couple of days after the last HSC examination so you must **act promptly**.

The school will make arrangements to ensure that your request proceeds without delay. The school will advise you of the outcome of its review, and will advise NESA of any changes to assessment marks.

Appeals to NESA

If your rank is reviewed by the school, and you are not satisfied with the result, you can appeal to the NSW Education Standards Authority (NESA).

Contact the school without delay, by email or telephone to the Head Teacher Secondary Studies, who will advise you how to proceed with an appeal.

Email: sydneyh-d.school@det.nsw.edu.au Attention: Head Teacher Secondary Studies
Phone: 9383 0200

There is no appeal against the marks awarded by teachers for individual assessment tasks.

The timeframe for Reviews and Appeals is very short.
Please contact the Head Teacher Secondary Studies promptly.

Part 3

Assessment Task Schedules Year 12 Higher School Certificate Courses

Tasks are shown as starting in a specified week of the Course Outline.
The corresponding dates can be found on the Course Outline
and on the calendar at the end of this booklet.

The Assessment Task Schedule information is correct for the start of each course.
Please note that any variations will be communicated to students
by email by their teachers.

Aboriginal Studies 2 unit

HSC Course Outcomes

A student:

- H1.1 evaluates the impact of different viewpoints of colonialism on Aboriginal and other Indigenous peoples
- H1.2 analyses and discusses the social justice and human rights issues that are contemporary consequences of colonialism on Aboriginal and other Indigenous peoples
- H1.3 assesses the representation of Aboriginal peoples and cultures for bias and stereotyping
- H2.1 examines contemporary expressions of Aboriginal and other Indigenous peoples' culture, heritage and identity
- H2.2 analyses the importance of Country as a contemporary issue impacting on Aboriginal and other Indigenous peoples' cultural, political, social and economic life
- H3.1 assesses the effectiveness of government policies, legislation and legal decisions in addressing discrimination
- H3.2 evaluates the impact of key government policies, legislation and legal decisions on the socioeconomic status of Aboriginal peoples and communities
- H3.3 evaluates initiatives that promote the social, economic and political independence of Aboriginal and other Indigenous peoples
- H4.1 plans, investigates, analyses, synthesises and communicates relevant information, incorporating Aboriginal and other Indigenous peoples' perspectives
- H4.2 undertakes community consultation and fieldwork and applies ethical research practices
- H4.3 investigates and compares the histories and cultures of Aboriginal peoples and other Indigenous peoples

Ancient History 2 Unit

HSC Course Outcomes

A student:

AH12-1 accounts for the nature of continuity and change in the ancient world

AH12-2 proposes arguments about the varying causes and effects of events and developments

AH12-3 evaluates the role of historical features, individuals and groups in shaping the past

AH12-4 analyses the different perspectives of individuals and groups in their historical context

AH12-5 assesses the significance of historical features, people, places, events and developments of the ancient world

AH12-6 analyses and interprets different types of sources for evidence to support an historical account or argument

AH12-7 discusses and evaluates differing interpretations and representations of the past

AH12-8 plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources

AH12-9 communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

AH12-10 analyses issues relating to ownership, custodianship and conservation of the ancient past

Biology 2 Unit

HSC Course Outcomes

A student:

BIO11/12-1 develops and evaluates questions and hypotheses for scientific investigation

BIO11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information

BIO11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information

BIO11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

BIO11/12-5 analyses and evaluates primary and secondary data and information

BIO11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

BIO11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose

BIO11/12-8 describes single cells as the basis for all life by analysing and explaining cells' ultrastructure and biochemical processes

BIO11/12-9 explains the structure and function of multicellular organisms and describes how the coordinated activities of cells, tissues and organs contribute to macroscopic processes in organisms

BIO11/12-10 describes biological diversity by explaining the relationships between a range of organisms in terms of specialisation for selected habitats and evolution of species

BIO11/12-11 analyses ecosystem dynamics and the interrelationships of organisms within the ecosystem

BIO11/12-12 explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species

BIO11/12-13 explains natural genetic change and the use of genetic technologies to induce genetic change

BIO11/12-14 analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system

BIO11/12-15 explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease

Business Services VET

2 Unit Course (BSB30120)

BUSINESS SERVICES ASSESSMENT SCHEDULE

Year 12 2024

Qualification: BSB30120 Certificate III in Business

Training Package: BSB Business Services (version 8)

RTO - Department of Education - 90333, 90222, 90072, 90162

Assessment Tasks for BSB30120 Certificate III in Business Ongoing assessment of skills and knowledge is collected throughout the course and forms part of the evidence of competence of students		Cluster 4 Wellbeing	Cluster 5 Mastering document design	Cluster 6 Sharing is caring	Cluster 7 Thinking critically	Trial Exam*
		Start: Week 1 Term 4 Complete: Week 5 Term 4	Start: Week 6 Term 4 Complete: Week 4 Term 1	Start: Week 5 Term 1 Complete: Week 5 Term 2	Start: Week 6 Term 2 Complete: Week 10 Term 2	Week 3 & 4 Term 3
Code	Unit of Competency					
BSBPEF201	Support personal wellbeing in the workplace	X				
BSBPEF301	Organised personal work priorities		X			
BSBTEC301	Design and produce business documents		X			
BSBSUS211	Participate in sustainable work practices			X		
BSBTWK301	Use inclusive work practices			X		
BSBTEC303	Create electronic presentations			X		
BSBCRT311	Apply critical thinking skills in a team environment				X	

Depending on the achievement of units of competency, the possible qualification outcome is **Certificate III in Business BSB30120** or a **Statement of Attainment towards Certificate III in Business BSB30120**. **The exam Tasks will be confirmed by your teacher as they may be used for the assessment of competencies and /or NESA reporting requirements.**

The assessment components in this course are competency based. Students need to demonstrate that they have gained and can apply the specific knowledge and skills for each unit of competency. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. This means a course mark is not allocated.

Note: 35 hours of work placement is mandatory.

Business Studies 2 Unit

Year 12 Course Outcomes

A student:

- H1 critically analyses the role of business in Australia and globally
- H2 evaluates management strategies in response to changes in internal and external influences
- H3 discusses the social and ethical responsibilities of management
- H4 analyses business functions and processes in large and global businesses
- H5 explains management strategies and their impact on businesses
- H6 evaluates the effectiveness of management in the performance of businesses
- H7 plans and conducts investigations into contemporary business issues
- H8 organises and evaluates information for actual and hypothetical business situations
- H9 communicates business information, issues and concepts in appropriate formats
- H10 applies mathematical concepts appropriately in business situations

Chemistry 2 Unit

Year 12 Course Outcomes

A student:

- CH11/12-1 develops and evaluates questions and hypotheses for scientific investigation
- CH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information
- CH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information
- CH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
- CH11/12-5 analyses and evaluates primary and secondary data and information
- CH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
- CH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose
- CH12-12 explains the characteristics of equilibrium systems, and the factors that affect these systems
- CH12-13 describes, explains and quantitatively analyses acids and bases using contemporary models
- CH12-14 analyses the structure of, and predicts reactions involving, carbon compounds
- CH12-15 describes and evaluates chemical systems used to design and analyse chemical processes

Community and Family Studies

2 Unit

Year 12 Course Outcomes

A student:

- H1.1 analyses the effect of resource management on the wellbeing of individuals, groups, families and communities
- H2.1 analyses different approaches to parenting and caring relationships
- H2.2 evaluates strategies to contribute to positive relationships and the wellbeing of individuals, groups, families and communities
- H2.3 critically examines how individual rights and responsibilities in various environments contribute to wellbeing
- H3.1 analyses the socio-cultural factors that lead to special needs of individuals in groups
- H3.2 evaluates networks available to individuals, groups and families within communities
- H3.3 critically analyses the role of policy and community structures in supporting diversity
- H3.4 critically evaluates the impact of social, legal and technological change on individuals, groups, families and communities
- H4.1 justifies and applies appropriate research methodologies
- H4.2 communicates ideas, debates issues and justifies opinions
- H5.1 proposes management strategies to enable individuals and groups to satisfy their specific needs and to ensure equitable access to resources
- H5.2 develops strategies for managing multiple roles and demands of family, work and other environments
- H6.1 analyses how the empowerment of women and men influences the way they function within society
- H6.2 formulates strategic plans that preserve rights, promote responsibilities and establish roles leading to the creation of positive social environments

Computing Applications

2 Unit

Year 12 Course Outcomes

A student:

- 1.1 describes the function and application of a variety of computer software
- 1.2 applies computing terminology appropriately in practical situations
- 1.3 uses appropriate computer software in a given context
- 2.1 describes aspects of human activity which have developed into computer applications
- 2.2 explains the principles and functions of specific hardware components
- 2.3 evaluates the suitability of hardware in a particular context
- 3.1 applies a range of project management techniques in the development of a solution
- 3.2 analyses and documents the steps involved in problem-solving and applies them to producing computer-based solutions
- 3.3 implements, tests, debugs and evaluates solutions using current common application packages
- 4.1 identifies and reflects on the social and technological implications when making decisions about the use of computer software
- 4.2 evaluates the use of a computer-based solution compared to non-computer solutions
- 4.3 identifies social and ethical issues related to the use of computer software
- 5.1 evaluates the suitability of software applications in a particular context

Design and Technology

2 Unit

Year 12 Course Outcomes

A student:

- H1.1 critically analyses the factors affecting design and the development and success of design projects
- H1.2 relates the practices and processes of designers and producers to the major design project
- H2.1 explains the influence of trends in society on design and production
- H2.2 evaluates the impact of design and innovation on society and the environment
- H3.1 analyses the factors that influence innovation and the success of innovation
- H3.2 uses creative and innovative approaches in designing and producing
- H4.1 identifies a need or opportunity and researches and explores ideas for design development and production of the major design project
- H4.2 selects and uses resources responsibly and safely to realise a quality major design project
- H4.3 evaluates the processes undertaken and the impacts of the major design project
- H5.1 manages the development of a quality major design project
- H5.2 selects and uses appropriate research methods and communication techniques
- H6.1 justifies technological activities undertaken in the major design project through the study of industrial and commercial practices
- H6.2 critically assesses the emergence and impact of new technologies, and the factors affecting their development

- EES11/12-5 analyses and evaluates primary and secondary data and information
- EES11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
- EES11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose
- EES12-12 describes and evaluates the models that show the structure and development of the Earth over its history
- EES12-13 describes and evaluates the causes of the Earth's hazards and the ways in which they affect, and are affected by, the Earth's systems
- EES12-14 analyses the natural processes and human influences on the Earth, including the scientific evidence for changes in climate
- EES12-15 describes and assesses renewable and non-renewable Earth resources and how their extraction, use, consumption and disposal affect the Earth's systems

Economics 2 Unit

Year 12 Course Outcomes

A student:

- H1 demonstrates understanding of economic terms, concepts and relationships
- H2 analyses the economic role of individuals, firms, institutions and governments
- H3 explains the role of markets within the global economy
- H4 analyses the impact of global markets on the Australian and global economies
- H5 discusses policy options for dealing with problems and issues in contemporary and hypothetical contexts
- H6 analyses the impact of economic policies in theoretical and contemporary Australian contexts
- H7 evaluates the consequences of contemporary economic problems and issues on individuals, firms and governments
- H8 applies appropriate terminology, concepts and theories in contemporary and hypothetical economic contexts
- H9 selects and organises information from a variety of sources for relevance and reliability
- H10 communicates economic information, ideas and issues in appropriate forms
- H11 applies mathematical concepts in economic contexts
- H12 works independently and in groups to achieve appropriate goals in set timelines.

Engineering Studies

2 Unit

Year 12 Course Outcomes

A student:

- H1.1 describes the scope of engineering and critically analyses current innovations
- H1.2 differentiates between properties of materials and justifies the selection of materials, components and processes in engineering
- H2.1 determines suitable properties, uses and applications of materials in engineering
- H2.2 analyses and synthesises engineering applications in specific fields and reports on the importance of these to society
- H3.1 demonstrates proficiency in the use of mathematical, scientific and graphical methods to analyse and solve problems of engineering practice
- H3.2 uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports
- H3.3 develops and uses specialised techniques in the application of graphics as a communication tool
- H4.1 investigates the extent of technological change in engineering
- H4.2 applies knowledge of history and technological change to engineering- based problems
- H4.3 appreciates social, environmental and cultural implications of technological change in engineering and applies them to the analysis of specific problems
- H5.1 works individually and in teams to solve specific engineering problems and in the preparation of engineering report
- H5.2 selects and uses appropriate management and planning skills related to engineering
- H6.1 demonstrates skills in research and problem-solving related to engineering
- H6.2 demonstrates skills in analysis, synthesis and experimentation related to engineering

English Advanced 2 Unit

Year 12 Course Outcomes

A student:

EA12-1 independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure

EA12-2 uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies

EA12-3 critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning

EA12-4 strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts

EA12-5 thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesise complex information, ideas and arguments

EA12-6 investigates and evaluates the relationships between texts

EA12-7 evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued

EA12-8 explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning

EA12-9 reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner

English Extension

1 Unit

Year 12 Course Outcomes

A student:

- EE12-1 demonstrates and applies insightful understanding of the dynamic, often subtle, relationship between text, purpose, audience and context, across a range of modes, media and technologies
- EE12-2 analyses and experiments with language forms, features and structures of complex texts, discerningly evaluating their effects on meaning for different purposes, audiences and contexts
- EE12-3 independently investigates, interprets and synthesises critical and creative texts to analyse and evaluate different ways of valuing texts in order to inform and refine response to and composition of sophisticated texts
- EE12-4 critically evaluates how perspectives, including the cultural assumptions and values that underpin those perspectives, are represented in texts
- EE12-5 reflects on and evaluates the development of their conceptual understanding and the independent and collaborative writing and creative processes

Year 12 Assessment Task Schedule Specific start and submission dates are given in the task notification

Exploring Early Childhood 1 Unit

Year 12 Course Outcomes

A student:

- 1.1 analyses prenatal issues that have an impact on development
- 1.2 examines major physical, social-emotional, behavioural, cognitive and language development of young children
- 1.3 examines the nature of different periods in childhood – infant, toddler, preschool and the early school years
- 1.4 analyses the ways in which family, community and culture influence the growth and development of young children
- 1.5 examines the implications for growth and development when a child has special needs
- 2.1 analyses issues relating to the appropriateness of a range of services for different families
- 2.2 critically examines factors that influence the social world of young children
- 2.3 explains the importance of diversity as a positive issue for children and their families
- 2.4 analyses the role of a range of environmental factors that have an impact on the lives of young children
- 2.5 examines strategies that promote safe environments
- 3.1 evaluates strategies that encourage positive behaviour in young children
- 4.1 demonstrates appropriate communication skills with children and/or adults
- 4.2 interacts appropriately with children and adults from a wide range of cultural backgrounds
- 4.3 demonstrates appropriate strategies to resolve group conflict
- 5.1 analyses and compares information from a variety of sources to develop an understanding of child growth and development
- 6.1 demonstrates an understanding of decision making processes
- 6.2 critically examines all issues including beliefs and values that may influence interactions with others

Food Technology 2 Unit

Year 12 Course Outcomes

A student:

- H1.1 explains manufacturing processes and technologies used in the production of food products
- H1.2 examines the nature and extent of the Australian food industry
- H1.3 justifies processes of food product development and manufacture in terms of market, technological and environmental considerations
- H1.4 evaluates the impact of the operation of an organisation within the Australian Food Industry on the individual, society and environment
- H2.1 evaluates the relationship between food, its production, consumption, promotion and health
- H3.1 investigates operations of one organisation within the Australian Food Industry
- H3.2 independently investigates contemporary nutrition issues
- H4.1 develops, prepares and presents food using product development processes
- H4.2 applies principles of food preservation to extend the life of food and maintain safety
- H5.1 develops, realises and evaluates solutions to a range of food situations

Year 12 Assessment Task Schedule Specific start and submission dates are given in the task notification

Task No.	Task starts	Task is submitted	Task type	Topics / Content	Outcomes assessed may include	Task Weighting	Assessment Components and Weightings

Geography 2 Unit

Year 12 Course Outcomes

A student:

- H1 explains the changing nature, spatial patterns and interaction of ecosystems, urban places and economic activity
- H2 explains the factors which place ecosystems at risk and the reasons for their protection
- H3 analyses contemporary urban dynamics and applies them in specific contexts
- H4 analyses the changing spatial and ecological dimensions of an economic activity
- H5 evaluates environmental management strategies in terms of ecological sustainability
- H6 evaluates the impacts of, and responses of people to, environmental change
- H7 justifies geographical methods applicable and useful in the workplace and relevant to a changing world
- H8 plans geographical inquiries to analyse and synthesise information from a variety of sources
- H9 evaluates geographical information and sources for usefulness, validity and reliability
- H10 applies maps, graphs and statistics, photographs and fieldwork to analyse and integrate data in geographical contexts
- H11 applies mathematical ideas and techniques to analyse geographical data
- H12 explains geographical patterns, processes and future trends through appropriate case studies and illustrative examples
- H13 communicates complex geographical information, ideas and issues effectively, using appropriate written and/or oral, cartographic and graphic forms

Year 12 Assessment Task Schedule Specific start and submission dates are given in the task notification

Task No.	Task starts	Task is submitted	Task type	Topics / Content	Outcomes assessed may include	Task Weighting	Assessment Components and Weightings

History Extension

1 Unit

Year 12 Course Outcomes

A student:

- HE12-1 analyses and evaluates different approaches to history and the complexity of factors that shape historical interpretations
- HE12-2 plans, conducts and presents a substantial historical investigation involving analysis, synthesis and evaluation of information from historical sources of differing perspectives and historical approaches
- HE12-3 communicates through detailed, well-structured texts to explain, argue, discuss, analyse and evaluate historical issues
- HE12-4 constructs an historical position about an area of historical inquiry, and discusses and challenges other positions

Year 12 Assessment Task Schedule Specific start and submission dates are given in the task notification

Task No.	Task starts	Task is submitted	Task type	Topics / Content	Outcomes assessed may include	Task Weighting	Assessment Components and Weightings	
							Knowledge & understanding of significant historical ideas & processes	Skills in designing, undertaking & communicating historical inquiry and analysis

Hospitality (Cookery) VET

2 Unit Course (SIT20421)

HOSPITALITY – Cookery ASSESSMENT SCHEDULE
 Year 12 2024
 Qualification: SIT20421 Certificate II in Cookery
 Training Package: SIT Tourism, Travel and Hospitality (version 2.1)

RTO - Department of Education - 90333, 90222, 90072, 90162

Assessment Tasks for SIT20421 Certificate II in Cookery Ongoing assessment of skills and knowledge is collected throughout the course and forms part of the evidence of competence of students		Task 3	Task 4	Task 5	Trial Exam*
		Start: Week 1 Term 4 Complete: Week 8 Term 4	Start: Week 1 Term 4 Complete: Week 8 Term 1	Start: Week 1 Term 4 Complete: Week 8 Term 2	Week 3 & 4 Term 3
Code	Unit of Competency				
SITHCCC026	Package prepared foodstuffs	X			
SITHCCC023	Use food preparation equipment		X		
SITHCCC024	Prepare and present simple dishes		X		
SITHCCC027	Prepare dishes using basic methods of cookery			X	
SITHCCC034	Work effectively in a commercial kitchen			X	

Depending on the achievement of units of competency, the possible qualification outcome is **SIT20421 Certificate II in Cookery**.
The Exam Tasks will be confirmed by your teacher as they may be used for the assessment of competencies and /or NESA reporting requirements.
 * Selected units only to be confirmed by your teacher.

The assessment components in this course are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills of each unit of competency for Tasks 1 and 2. Assessment is continuous and includes knowledge quizzes and practical assessment throughout the course. These assessment dates are on the course outline. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. This means a course mark is not allocated.

Industrial Technology – Multimedia

2 Unit

Year 12 Course Outcomes

A student:

- H1.1 investigates industry through the study of businesses in one focus area
- H1.2 identifies appropriate equipment, production and manufacturing techniques and describes the impact of new and developing technologies in industry
- H1.3 identifies important historical developments in the focus area industry
- H2.1 demonstrates proficiency in the use of safe working practices and workshop equipment maintenance techniques
- H3.1 demonstrates skills in sketching, producing and interpreting drawings
- H3.2 selects and applies appropriate research and problem-solving skills
- H3.3 applies and justifies design principles effectively through the production of a Major Project
- H4.1 demonstrates competence in a range of practical skills appropriate to the Major Project
- H4.2 explores the need to outsource appropriate expertise where necessary to complement personal practical skills
- H4.3 critically applies knowledge and skills related to properties and characteristics of materials/components
- H5.1 selects and uses communication and information processing skills
- H5.2 examines and applies appropriate documentation techniques to project management
- H6.1 evaluates the characteristics of quality manufactured products
- H6.2 applies the principles of quality and quality control
- H7.1 explains the impact of the focus area industry on the social and physical environment
- H7.2 analyses the impact of existing, new and emerging technologies of the focus industry on society and the environment

Information Processes and Technology

2 Unit

Year 12 Course Outcomes

A student:

- H1.1 applies and explains an understanding of the nature and function of information technologies to a specific practical situation
- H1.2 explains and justifies the way in which information systems relate to information processes in a specific context
- H2.1 analyses and describes a system in terms of the information processes involved
- H2.2 develops and explains solutions for an identified need which address all of the information processes
- H3.1 evaluates and discusses the effect of information systems on the individual, society and the environment
- H3.2 demonstrates and explains ethical practice in the use of information systems, technologies and processes
- H4.1 proposes and justifies ways in which information systems will meet emerging needs
- H5.1 justifies the selection and use of appropriate resources and tools to effectively develop and manage projects
- H5.2 assesses the ethical implications of selecting and using specific resources and tools, recommends and justifies the choices
- H6.1 analyses situations, identifies needs, proposes and then develops solutions
- H6.2 selects, justifies and applies methodical approaches to planning, designing or implementing solutions
- H7.1 implements and explains effective management techniques
- H7.2 uses methods to thoroughly document the development of individual and team projects

Legal Studies 2 Unit

Year 12 Course Outcomes

A student:

- H1 identifies and applies legal concepts and terminology
- H2 describes and explains key features of and the relationship between Australian and international law
- H3 analyses the operation of domestic and international legal systems
- H4 evaluates the effectiveness of the legal system in addressing issues
- H5 explains the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change
- H6 assesses the nature of the interrelationship between the legal system and society
- H7 evaluates the effectiveness of the law in achieving justice
- H8 locates, selects, organises, synthesises and analyses legal information from a variety of sources including legislation, cases, media, international instruments and documents
- H9 communicates legal information using well-structured and logical arguments
- H10 analyses differing perspectives and interpretations of legal information and issues

Marine Studies 2 Unit

Year 12 Course Outcomes

A student:

- 1.1 relates with a respectful and caring attitude to the ocean and its life forms
- 1.2 identifies the roles of individuals or groups involved in maritime activities
- 1.3 recalls aspects of the maritime environment using relevant conventions, terminology and symbols learned throughout the course
- 1.4 recognises Aboriginal and Torres Strait Islander values and attitudes toward the sea
- 1.5 demonstrates an awareness of the value of the ocean as a source of historical information
- 2.1 appreciates the importance of effective management practice
- 2.2 works effectively within a group
- 2.3 communicates information by writing reports, giving short talks and contributing to discussions
- 3.1 evaluates information, situations, equipment manuals and written or manual procedures
- 3.2 collects and organises data by accurately reading instruments, signals and charts; by systematic recording, summarising, tabulating and graphing
- 3.3 generates information from data by calculating, inferring, interpreting and generalising
- 3.4 carries out planned research activities using appropriate measurements, observations, classification and recording skills
- 4.1 identifies marine vocations and a range of leisure pursuits
- 4.2 appreciates marine environments as sources of employment and leisure
- 5.1 values the rules and operating principles of marine equipment and applies them
- 5.2 applies information including weather, regulations, procedures and skills to ensure safe use of marine environment
- 5.3 interprets and follows instructions, with accuracy
- 5.4 selects, organises, assembles, dismantles, cleans, and returns equipment

Mathematics Advanced 2 Unit

Year 12 Course Outcomes

A student:

- MA12-1 uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2 models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3 applies calculus techniques to model and solve problems
- MA12-4 applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5 applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6 applies appropriate differentiation methods to solve problems
- MA12-7 applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8 solves problems using appropriate statistical processes
- MA12-9 chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10 constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Mathematics Extension 1 1 Unit

Year 12 Course Outcomes

A student:

Advanced

- MA12-1** uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2** models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3** applies calculus techniques to model and solve problems
- MA12-4** applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5** applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6** applies appropriate differentiation methods to solve problems
- MA12-7** applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8** solves problems using appropriate statistical processes
- MA12-9** chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10** constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Extension 1

- ME12-1** applies techniques involving proof or calculus to model and solve problems
- ME12-2** applies concepts and techniques involving vectors and projectiles to solve problems
- ME12-3** applies advanced concepts and techniques in simplifying expressions involving compound angles and solving trigonometric equations
- ME12-4** uses calculus in the solution of applied problems, including differential equations and volumes of solids of revolution
- ME12-5** applies appropriate statistical processes to present, analyse and interpret data
- ME12-6** chooses and uses appropriate technology to solve problems in a range of contexts
- ME12-7** evaluates and justifies conclusions, communicating a position clearly in appropriate mathematical forms

Mathematics Extension 2 1 Unit

Year 12 Course Outcomes

A student:

- MEX12-1** understands and uses different representations of numbers and functions to model, prove results and find solutions to problems in a variety of contexts
- MEX12-2** chooses appropriate strategies to construct arguments and proofs in both practical and abstract settings
- MEX12-3** uses vectors to model and solve problems in two and three dimensions
- MEX12-4** uses the relationship between algebraic and geometric representations of complex numbers and complex number techniques to prove results, model and solve problems
- MEX12-5** applies techniques of integration to structured and unstructured problems
- MEX12-6** uses mechanics to model and solve practical problems
- MEX12-7** applies various mathematical techniques and concepts to model and solve structured, unstructured and multi-step problems
- MEX12-8** communicates and justifies abstract ideas and relationships using appropriate language, notation and logical argument

Mathematics Standard 2 2 Unit

Year 12 Course Outcomes

A student:

- MS2-12-1 uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts
- MS2-12-2 analyses representations of data in order to make inferences, predictions and draw conclusions
- MS2-12-3 interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate
- MS2-12-4 analyses two-dimensional and three-dimensional models to solve practical problems
- MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments
- MS2-12-6 solves problems by representing the relationships between changing quantities in algebraic and graphical forms
- MS2-12-7 solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
- MS2-12-8 solves problems using networks to model decision-making in practical problems
- MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
- MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

Modern History 2 Unit

Year 12 Course Outcomes

A student:

MH12-1 accounts for the nature of continuity and change in the modern world

MH12-2 proposes arguments about the varying causes and effects of events and developments

MH12-3 evaluates the role of historical features, individuals, groups and ideas in shaping the past

MH12-4 analyses the different perspectives of individuals and groups in their historical context

MH12-5 assess the significance of historical features, people, ideas, movements, events and developments of the modern world

MH12-6 analyses and interprets different types of sources for evidence to support an historical account or argument

MH12-7 discusses and evaluates differing interpretations and representations of the past

MH12-8 plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources

MH12-9 communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

Music 2 2 Unit

Year 12 Course Outcomes

A student:

- H1 performs repertoire that reflects the mandatory and additional topics and addresses the stylistic and technical demands of the music as a soloist and as a member of an ensemble
- H2 demonstrates an understanding of the relationships between combinations of the concepts of music, by interpreting, notating, analysing, discussing, composing and evaluating combinations of musical symbols reflecting those characteristically used in the mandatory and additional topics
- H3 composes works focusing on a range of concepts, for familiar and unfamiliar sound sources, solo, small and large ensembles, or using a variety of musical structures
- H4 stylistically creates, improvises, arranges and notates music which is representative of the mandatory and additional topics and demonstrates different social, cultural and historical contexts
- H5 analyses, discusses, evaluates and clearly articulates compositional processes with stylistic, historical, cultural, social and musical considerations
- H6 discusses, constructively criticises and evaluates performances and compositions of others and self with particular reference to stylistic features of the context
- H7 critically evaluates and discusses in detail the concepts of music in works representative of the mandatory and additional topics
- H8 understands the capabilities of performing media, incorporates technologies into compositions and performances as appropriate to the contexts studied
- H9 identifies, recognises, experiments with, and discusses the uses and effects of technology in music

Music 1 2 Unit

Year 12 Course Outcomes

A student:

- H1 performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- H2 reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
- H3 improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- H4 articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- H5 critically evaluates and discusses performances and compositions
- H6 critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- H7 understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
- H8 identifies, recognises, experiments with, and discusses the use and effects of technology in music

Personal Development, Health and Physical Education 2 Unit

Year 12 Course Outcomes

A student:

- H1 describes the nature and justifies the choice of Australia’s health priorities
- H2 analyses and explains the health status of Australians in terms of current trends and groups most at risk
- H3 analyses the determinants of health and health inequities
- H4 argues the case for health promotion based on the Ottawa Charter
- H5 explains the different roles and responsibilities of individuals, communities and governments in addressing Australia’s health priorities
- H6 demonstrates a range of personal health skills that enables them to promote and maintain health (Option 1)
- H7 explains the relationship between physiology and movement potential
- H8 explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
- H9 explains how movement skill is acquired and appraised
- H10 designs and implements training plans to improve performance
- H11 designs psychological strategies and nutritional plans in response to individual performance needs
- H12 analyses the influence of sociocultural factors on the way people participate in and value physical activity and sport (Option 2)
- H13 selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
- H14 argues the benefits of health-promoting actions and choices that promote social justice
- H15 critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
- H16 devises methods of gathering, interpreting and communicating information about health and physical activity concepts
- H17 selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation

Physics

2 Unit

Year 12 Course Outcomes

- A student:*
- PH11/12-1 develops and evaluates questions and hypotheses for scientific investigation
 - PH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information
 - PH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information
 - PH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
 - PH11/12-5 analyses and evaluates primary and secondary data and information
 - PH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
 - PH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose
 - PH12-12 describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles
 - PH12-13 explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively
 - PH12-14 describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world
 - PH12-15 explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

Photography, Video and Digital Imaging

2 Unit

Year 12 Course Outcomes

A student:

- M1 generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice
- M2 explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works
- M3 investigates different points of view in the making of photographs and/or videos and/or digital images
- M4 generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images
- M5 develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images
- M6 takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works

- CH1 generates in their critical and historical practice ways to interpret and explain photography
- CH2 investigates the roles and relationships among the conceptual framework in critical and historical investigations
- CH3 distinguishes between different points of view and offers interpretive accounts in critical and historical study
- CH4 explores ways in which histories, narratives and other accounts can be built to explain practices and interests in photography
- CH5 recognises how photography is used in various fields of cultural production

Society and Culture

2 Unit

Year 12 Course Outcomes

A student:

- H1 evaluates and effectively applies social and cultural concepts
- H2 explains the development of personal, social and cultural identity
- H3 analyses relationships and interactions within and between social and cultural groups
- H4 assesses the interaction of personal experience and public knowledge in the development of social and cultural literacy
- H5 analyses continuity and change and their influence on personal and social futures
- H6 evaluates social and cultural research methods for appropriateness to specific research tasks
- H7 selects, organises, synthesises and analyses information from a variety of sources for usefulness, validity and bias
- H8 uses planning and review strategies to conduct ethical social and cultural research that is appropriate for tasks ranging from the simple to the complex
- H9 applies complex course language and concepts appropriate for a range of audiences and contexts
- H10 communicates complex information, ideas and issues using appropriate written, oral and graphic forms

Software Design and Development 2 Unit

Year 12 Course Outcomes

A student:

- H1.1 explains the interrelationship between hardware and software
- H1.2 differentiates between various methods used to construct software solutions
- H1.3 describes how the major components of a computer system store and manipulate data
- H2.1 explains the implications of the development of different languages
- H2.2 explains the interrelationship between emerging technologies and software development
- H3.1 identifies and evaluates legal, social and ethical issues in a number of contexts
- H3.2 constructs software solutions that address legal, social and ethical issues
- H4.1 identifies needs to which software solutions are appropriate
- H4.2 applies appropriate development methods to solve software problems
- H4.3 applies a modular approach to implement well-structured software solutions and evaluates their effectiveness
- H5.1 applies project management techniques to maximise the productivity of the software development
- H5.2 creates and justifies the need for the various types of documentation required for a software solution
- H5.3 selects and applies appropriate software to facilitate the design and development of software solutions
- H6.1 assesses the skills required in the software development cycle
- H6.2 communicates the processes involved in a software solution to an inexperienced user
- H6.3 uses and describes a collaborative approach during the software development cycle
- H6.4 develops and evaluates effective user interfaces, in consultation with appropriate people

Sport, Lifestyle and Recreation

2 Unit

Year 12 Course Outcomes

A student:

- 1.1 applies the rules and conventions that relate to participation in a range of physical activities
- 1.2 explains the relationship between physical activity, fitness and healthy lifestyle
- 1.3 demonstrates ways to enhance safety in physical activity
- 1.4 investigates and interprets the patterns of participation in sport and physical activity in Australia
- 1.5 critically analyses the factors affecting lifestyle balance and their impact on health status
- 1.6 describes administrative procedures that support successful performance outcomes
- 2.1 explains the principles of skill development and training
- 2.2 analyses the fitness requirements of specific activities
- 2.3 selects and participates in physical activities that meet individual needs, interests and abilities
- 2.4 describes how societal influences impact on the nature of sport in Australia
- 2.5 describes the relationship between anatomy, physiology and performance
- 3.1 selects appropriate strategies and tactics for success in a range of movement contexts
- 3.2 designs programs that respond to performance needs
- 3.3 measures and evaluates physical performance capacity
- 3.4 composes, performs and appraises movement
- 3.5 analyses personal health practices
- 3.6 assesses and responds appropriately to emergency care situations
- 3.7 analyses the impact of professionalism in sport
- 4.1 plans strategies to achieve performance goal
- 4.2 demonstrates leadership skills and a capacity to work cooperatively in movement context
- 4.3 makes strategic plans to overcome the barriers to personal and community health
- 4.4 demonstrates competence and confidence in movement contexts
- 4.5 recognises the skills and abilities required to adopt roles that support health, safety and physical activity

Visual Design 2 Unit

Year 12 Course Outcomes

A student:

- DM1 generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice
- DM2 explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works
- DM3 investigates different points of view in the making of photographs and/or videos and/or digital images
- DM4 generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images
- DM5 develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images
- DM6 takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works
- CH1 generates in their critical and historical practice ways to interpret and explain photography
- CH2 investigates the roles and relationships among the conceptual framework in critical and historical investigations
- CH3 distinguishes between different points of view and offers interpretive accounts in critical and historical study
- CH4 explores ways in which histories, narratives and other accounts can be built to explain practices and interests in photography
- CH5 recognises how photography is used in various fields of cultural production
